

Tailgating Policy

Due to safety and privacy concerns, Georgia Tech does not permit tailgating in any residential area, including lawns, sidewalks, quads, internal courtyards, patios, driveways and stair cases. These spaces close to residence halls are reserved for resident use. The residents of a hall or area may use these spaces for their own activities during football games, after being granted reservation by Department of Housing. Alcohol is likewise not permitted in outdoor residential areas, regardless of the consumer's age. We thank you for your cooperation.
